## ELECTIONS MAY PROVE FAILURE

Only About Ten Thousand Votes Cast in Mexico.

### CATHOLIC PARTY CLAIMS LEAD

Gambos Is Reported to Be in the Lead for the Presidency, Diaz Second and Calero Third—New Congress When It Organizes and Revises Returns May Declare the Elections Void.

Mexico City, Oct. 27.—At the close of the elections the indications were that not sufficient votes had been cast to constitute a legal choice for the presidency to succeed General Victoriano Huerta.

No official announcement was made, but it was estimated that less than 10,000 of the 80,000 eligible voters in the federal district went to the polls. It would not surprise if congress members of which also were voted for, declared the elections void when the body is organized and revises the returns.

The leaders of the Catholic party claimed a long lead, although they were unable to estimate the number of votes polled for their candidates, Frederico Gamboa and General Rason.

If this claim is correct it is generally thought that General Felix Diaz and Senor Requean run second. The Liberal candidates, Manuel Calero and Flores Magon, had no printed ticket at the polling places, their constituents being obliged to write their names in blank spaces.

Huerta Will Increase Army. A decree will be issued by President Huerta increasing the army from 85,000 men, its alleged present number, to 150,000.

General Huerta proposed such an increase some time ago, but the congress which he dissolved limited him to 80,000. Since the deputies and senators are not subject to the election provisions governing the presidential election it is said that the choice for congress is assured.

It is assumed, on the showing so far as known, the Catholic party will secure a majority in both chamber and senate.

Examples of lack of activity in voting, made at random after the closing of the polls at three places in thickly populated districts, are: Eleven votes cast out of an eligible 80, 12 cast out of an eligible 77 and 27 cast out of an eligible 350.

One suburban polling place reported 21 votes out of 80 eligible exercising their franchise.

The nearest approach of any district in bringing out its full voting strength occurred in one block, where fourteen men were eligible. Thirteen of these men cast their ballots. The fourteenth man was in jail.

### CLEAR DIPLOMATIC SLATE

London Telegraph's Opinion of Mexican Elections.

London, Oct. 27.—The Daily Telegraph, in a special article on the Mexican situation, argues that Great Britain recognizes President Huerta for only a limited period which terminated with the elections.

The diplomatic slate, says the paper, is now cleared and it cannot be too strongly insisted that any refusal of General Huerta to respect his undertaking not to accept the presidency, or that any violence shown toward prisoners or otherwise, would create a new situation entitling Great Britain to reconsider her recognition.

Great Britain will observe entire neutrality and will not interfere unless some arrangement for joint action can be made or unless the United States suggests its inability to deal in a military way with its turbulent neighbor.

### SPEECH MAY MEAN WARNING

Wilson Says Government Stained by Blood Cannot Endure.

Swarthmore, Pa., Oct. 27.—President Wilson, in a speech here, proclaimed the doctrine that the whole Western hemisphere should be devoted to one sacred purpose—"That nowhere can any government endure which is stained by blood or supported by anything but the consent of the governed."

His utterances, it is known, reflect the ideas which the Washington administration is preparing to announce to the nations of the world in a formal note on the policy of the United States toward Mexico.

The president spoke in a big tent not far from the spot where William Penn landed, the exercises being commemorative also of Founders' day at Swarthmore college. He was enthusiastically cheered.

### CLARKE TO PILOT OREGON

Will Lead Old Battleship on Parade Through Panama Canal.

Washington, Oct. 27.—Rear Admiral Charles E. Clark, retired commander of the battleship Oregon when she made her famous trip around Cape Horn at the opening of the Spanish war, has accepted the invitation of Secretary Daniels to be on the bridge of his old ship to lead the international fleet through the Panama canal early in 1915.

## FALLING WALLS CRUSH FIREMEN

At Least Six Dead in Accident at Milwaukee.

### OVER TWENTY ARE INJURED

Explosion During Blaze in Rubber Company Building Brings Walls Topping Onto Fifty Men—Several Are Missing and Their Bodies Are Believed to Be Buried in the Ruins.

Milwaukee, Oct. 27.—Six dead firemen and twenty-one injured were taken from the ruins of the Goodyear Rubber company here in a fire which caused a damage of \$500,000. It is believed that there are several more bodies in the ruins.

The flames broke out on the second floor and while the firemen were fighting the blaze from the front and rear an explosion sent the walls crashing down on fifty firemen. Windows for blocks around were smashed and the flames spread to adjoining buildings.

Rescue companies were immediately sent into the blazing mass and the bodies of the dead and injured were taken out. Priests were called and when they saw that it was impossible to get the men out they gave extreme unction to all in the ruins. The sight was heartrending. The priests stood, crouched beneath a mass of timbers and bricks, and with flames shooting forth on all sides, they gave the final words to the dead.

Practically the entire fire fighting apparatus of the city was called to the scene of the disaster, which was located in the heart of the business section of the city.

### Other Concerns Suffer.

Several other business houses besides the Goodyear company suffered heavy losses.

The known dead are: Charles Fenske, Bernard Zanolowski, George Clausen, Max Fletcher, two unidentified men.

The crushed head of a man was taken from the ruins, but the body couldn't be found.

The other known dead were so badly mangled that identification will not be known until all of the firemen are checked up at the respective fire houses.

Thousands of people rushed to the scene of the disaster when the news spread about the city and the police were forced to spread the fire lines for a great distance owing to the difficulty in handling the crowds.

Relatives of missing firemen rushed by the police and three women, whose sons were firemen, reached the ruins before they could be dragged away. The scene of the blaze was within two doors of the fire ten years ago which took the lives of Chief Foley and five firemen.

Charles C. Newton of the fire insurance patrol, who was listed among the dead at first, was taken from the ruins three hours after the explosion. He was buried beneath the wreckage and when found was sitting crouched beneath a heavy timber which had prevented the bricks from falling on him. Fire shot out on all sides, but he put it out with his hand.

Cries brought the rescue parties near and after an hour of strenuous work the man was pulled forth, removed to a hospital and doctors say that he will recover.

### EDSALL HELPS IN RESCUES

Minnesota Bishop One of Passengers on Wrecked Express Train.

Providence, R. I., Oct. 27.—Bishop Eadsall of Minnesota was one of the wreck victims of the Gilt Edge express on the New Haven road in which fifty-two persons were injured. He was returning from the Episcopal convention at New York.

When the cars left the track Bishop Eadsall, who escaped practically unhurt, was among the first to rush to the assistance of the injured and worked for some hours bandaging cuts and broken bones.

### ROOSEVELT RESUMES TRIP

Departs From Rio-Janeiro by Special Train for Sao Paulo.

Rio Janeiro, Oct. 27.—Colonel Theodore Roosevelt left Rio Janeiro by a special train for Sao Paulo. The party was accompanied to the train by a representative of President Fonseca, by all the ministers, the diplomatic corps, members of parliament and higher officials. The crowd cheered the departing visitors.

### Snow Falls in Oklahoma.

Oklahoma City, Okla., Oct. 27.—Snow fell throughout Oklahoma from Saturday at midnight to Sunday noon to a depth of from three inches at Bartlesville, and one inch in the Panhandle to a slight flurry in the southeastern portion of the state. A cold north wind accompanied the snow.

Clark, retired commander of the battleship Oregon when she made her famous trip around Cape Horn at the opening of the Spanish war, has accepted the invitation of Secretary Daniels to be on the bridge of his old ship to lead the international fleet through the Panama canal early in 1915.

## FELIX DIAZ.

Candidate for the Presidency Resigns From Mexican Army.

### RESIGNS FROM MEXICAN ARMY

General Felix Diaz Severs Relations With Huerta.

Vera Cruz, Oct. 27.—The last shred binding General Felix Diaz and General Victoriano Huerta was severed when General Diaz telegraphed to the department of war his resignation as brigadier general of the army.

Negotiations regarding the trip to Mexico City on invitation of General Huerta ended by his flat refusal to accompany Colonel Vidaurrazaga, secretary to General Blanquet, war minister, giving as his reason the illness of his wife.

The few partisans of Diaz who have stood guard in his rooms at the hotel for the last four days also left for their homes in Mexico City, but a handful of supporters are still here, subject to the orders of their political chief. The building is being closely watched by plain clothes men and police from points of vantage in the streets and on roofs.

### HEARTY WELCOME FROM SOUTHERNERS

Thousands Cheer President Wilson on Way to Mobile.

On Board President Wilson's Special Train, Atlanta, Ga., Oct. 27.—Thousands of Southern folk in great cheering throngs welcomed President Wilson to Dixie land as he sped through Virginia, North and South Carolina and Georgia en route to the Southern Commercial congress at Mobile, Ala., to deliver an address.

The shrill notes of the rebel yell at Salisbury, N. C., awakened the president earlier than he had intended to rise and the autumn sunlight streaked over the Blue ridge, a pilgrimage of admiring hosts began.

"We walked fifteen miles to see you," said a group in North Carolina, as the president appeared on the car platform at Charlotte. They told Mr. Wilson they were from Davidson college, where he had prepared for Princeton. The president greeted them warmly.

"It's like coming home again," he said, and amid cheers hundreds of hands were stretched toward him. Mr. Wilson shook hands with many, but refrained from making any speeches.

### CONTENTS NOT MADE PUBLIC

Bryan Receives Cipher Cablegram From John Lind.

Washington, Oct. 27.—Officials in Washington kept in constant touch with the state department for news from the Mexican elections and President Wilson, although en route to the Southern Commercial congress in Mobile, Ala., was kept advised of the situation as it was reflected from Mexico City.

Secretary Bryan received a long cipher cablegram from the special American envoy, John Lind, in Vera Cruz. This message, the contents of which were not made public, was reported to contain a summary of instructions sent out to the Mexican governors from the Huerta government for the conduct of the election.

### EXPRESS RATES ACCEPTED

## MEXICO AGAIN ON THE FRONT PAGES

Public Promised Diet of Revolution For Many Months.

### ONE PLAUSIBLE THEORY.

Clouds of Misinformation Muddle Situation Until No One Knows Just Where the United States Stands—Let 'Em Fight Is One Solution That Has Been Suggested.

By ARTHUR W. DUNN.

Washington, Oct. 27.—[Special.]—During the world's series which settled the baseball championship the Mexican situation was temporarily thrust into the background, but it could not remain there long with nothing of great interest and excitement on hand. The loss of a ship at sea and another in the air seemed to rest the faded readers of Mexican affairs for a time, but it really looks as if we were to have Mexico as a steady diet for many months to come.

"We are going to intervene; we are not going to intervene; President Wilson has determined to enforce his policy; President Wilson has no policy; we must enforce the Monroe doctrine; we have no Monroe doctrine," and many others are phrases heard concerning our relations with the warring republic. The discussion is from every point of view.

### One Plausible Theory.

At least one plausible theory seems to develop through all the clouds of misinformation and gloom of those who shoulder responsibility for our international relations. The only way the Mexicans can settle their affairs is to fight it out until one side is strong enough to rule. Intervention by the United States or taking sides with one of the several factions would simply mean an extension and enlargement of the present deplorable conditions.

### Martine Militant.

Senator Martine of New Jersey becomes militant when he reads about the manner in which foreign nations are trying to "put something over" on us. The talk of a trade war because we propose to give American ships a 5 per cent benefit in carrying goods from foreign countries stirred the New Jersey senator to bitter resentment.

But he goes farther. He would abrogate the Hay-Pauncefote treaty, "because," he told the senate, "it seems that a foreign diplomat can take that Hay-Pauncefote treaty and show that we have no right at all to exist as a nation."

It seems so strange now, as it did to some of us at the time, that the United States, through its diplomatic officers and by a two-thirds vote of the senate, would tie its hands, as it did in the Hay-Pauncefote treaty. Martine has many sympathizers in his efforts to abrogate it.

### Disappointed Missourian.

A man from Missouri says he spent two weeks in Washington, and he wanted to see some downright legislation at the capitol, but every time he went to the house a "bushy whiskered man, who seemed to be the boss of everything and whom everybody referred to as 'the gentleman from Illinois,'" held up everything, caused the roll to be called, insisted upon "no quorum" and otherwise prevented me from seeing any real legislation."

The Missourian, however, had an opportunity to see Champ Clark hammer the desk with his gavel.

### A Reason.

One reason given why there should be an adjournment or at least a recess is that mileage will be assured if there is a valid reason for senators and representatives to go home. In all probability the mileage will be voted for this special session, but it would be much easier if there was a real interregnum.

### Might Have Been Leader.

Dorsey W. Shackelford of Missouri might have been leader of the house if he had not left the ways and means committee to become chairman of the roads committee. "Dirt Road Shack," as he is called because he has been such an advocate of roads—and he uses it in his district with good effect—did not see much hope of succeeding to the leadership in the house at the beginning of the present session. There was Underwood, and no one thought he would ascend. Next was Francis Burton Harrison, and who ever thought he should be sent to the Philippines? Shackelford saw more real service at the head of the roads committee, and so he went after it. Incidentally it may be remarked that no one is going to get the leadership without a struggle.

### Railway Mail Pay.

It looked like quite a demonstration when about thirty railroad presidents came to Washington. The private cars in the railroad yards were so numerous that it seemed as if several special trains had arrived. Those presidents told Postmaster General Burleson that the revenues of the roads had been cut by taking away a large part of the paying express business and sending it by parcel post, which roads carry and for which they do not receive additional compensation.

"The postoffice department," Mr. Burleson told them, "wants to be absolutely fair to the railroads."

## CARDINAL MERRY DEL VAL.

Vatican Closely Watching Political Crisis in Spain.

### VATICAN WATCHING SPAIN

Attitude of Neutrality to Be Maintained in Present Crisis.

Rome, Oct. 27.—The political crisis in Spain is being closely watched by the Vatican. Pope Pius and Cardinal Merry del Val, the papal secretary of state, are being kept constantly informed on the development of events. The Spanish clergy and episcopacy have been instructed to maintain strict neutrality.

### WHOLESALE JEWELRY MAN BECOMES THIEF

Bulldog Proves Undoing of San Francisco Citizen.

San Francisco, Oct. 27.—For five years William Bastain has been accepted by San Francisco business men as a responsible citizen, with a profitable wholesale jewelry business. His property investments have been numerous and large; thousands of dollars have been sent by him to support his mother in Germany and his young sister has had the best educational and social advantages.

He is now in jail, a confessed robber, with a record covering many years, captured by a bulldog which pinned him in a corner as he stole through a back yard in the night.

"My work has been so easy it has been laughable," Bastain told the detectives. "I have never been disturbed while at work."

"The people I did business with believed me to be what I represented myself. Jewelers bought my diamonds and the mint took my melted gold without question."

"I have always been a natural thief and I have found it easy to steal. But I am averse to killing or injuring."

### FIGHT LASTS TWELVE HOURS

General Battle Between Mine Guards, Deputies and Strikers.

Ludlow, Colo., Oct. 27.—A general battle between the strikers, mine guards and deputy sheriffs was waged for twelve hours in Berwin Canon at Hastings and in the vicinity of the Colorado and Southern station at Ludlow.

One mine guard was killed and, according to union men, one striker is missing. The situation is critical. More than 700 armed strikers are reported to be in the field against the mine guards.

### HOLDS THAW RESPONSIBLE

Attorney General of New York Declares He Is Sane Enough.

Albany, N. Y., Oct. 27.—Attorney General Carmody issued a statement declaring that the outcome of the present proceedings to bring about the return of Harry K. Thaw to this state will demonstrate "whether the law will be vindicated or whether by the lavish and ingenious use of his great wealth Thaw can break down the barriers of justice and defeat the law."

It never was claimed that Thaw at all times is insane or that he was incapable of committing crime, the attorney general said, and added "that altogether under the law an insane man is not held responsible for his acts committed while insane, if a man is sufficiently lucid to plan his escape successfully from confinement it is apparent that he knows what he is doing and is legally responsible for his acts."

### ITALIAN ELECTIONS QUIET

Only One Person Killed as Result of Disorders.

Rome, Oct. 27.—General elections were held throughout Italy. Disorders were not as grave as expected, although one was killed and many were wounded. Numerous arrests were made.

The balloting was light, because, on account of springlike weather, the people preferred to go on excursions rather than to the polls. Results of the elections are not definitely known, but already the government is assured of a large majority.

### TWO MORE RESCUERS PERISH

Helmet Men Explore Entire Workings and Ascertain Definitely That No Life Exists in the Pit—Heroic Efforts of the Explorers to Rescue Entombed Miners Result in Their Own Deaths.

Dawson, N. M., Oct. 27.—Positive assurance that none of the 284 miners caught in the explosion of St. Canon mine No. 2 last Wednesday remain in the mine alive has been obtained.

The entire workings have been explored by helmet men. It was definitely learned that bodies which have not been located are lying buried beneath tons of debris.

Two hundred and sixty-one, the original death total, was increased by the death of two helmet men in their heroic efforts to save life.

Twenty-three lives were saved after the explosion, which, according to government miners rescue reports, was the greatest in point of violence in the history of the United States and which, they say, ranks third in its appalling loss of life. A total of 140 dead have been brought to the surface.

The bodies of Mine Superintendent William McDermott and Henry P. McShane, the wealthy young man from New York, were recovered. Both, with sixteen others, were buried under tons of debris.

### POLITICS IN NORTH DAKOTA

Grand Forks, N. D., Oct. 27.—Lines for the United States senatorial fight and for the three congressional contests in North Dakota are being laid early and the present indications are that the fights for the Republican nominations will be spirited.

## CATHOLIC PARTY CLAIMS LEAD

Gamboa is Reported to Be in the Lead for the Presidency, Diaz Second and Calero Third—New Congress When It Organizes and Revises Returns May Declare the Elections Void.

Mexico City, Oct. 27.—At the close of the elections the indications were that not sufficient votes had been cast to constitute a legal choice for the presidency to succeed General Victoriano Huerta.

No official announcement was made, but it was estimated that less than 10,000 of the 80,000 eligible voters in the federal district went to the polls. It would not surprise if congress the members of which also were voted for, declared the elections void when the body is organized and revises the returns.

The leaders of the Catholic party claimed a long lead, although they were unable to estimate the number of votes polled for their candidates, Federico Gamboa and General Rason.

If this claim is correct it is generally thought that General Felix Diaz and Senor Requin ran second. The Liberal candidates, Manuel Calero and Flores Magon, had no printed ticket at the polling places, their constituents being obliged to write their names in black spaces.

## Huerta Will Increase Army.

A decree will be issued by President Huerta increasing the army from 85,000 men, its alleged present number, to 150,000.

General Huerta proposed such an increase some time ago, but the congress which he dissolved limited him to 80,000. Since the deputies and senators are not subject to the election provisions governing the presidential election it is said that the choice for congress is assured.

It is assumed, on the showing so far as known, the Catholic party will secure a majority in both chamber and senate.

Examples of lack of activity in voting, made at random after the closing of the polls at three places in thickly populated districts, are: Eleven votes cast out of an eligible 80, 12 cast out of an eligible 77 and 27 cast out of an eligible 350.

One suburban polling place reported 21 votes out of 80 eligible exercising their franchise.

The nearest approach of any district in bringing out its full voting strength occurred in one block, where fourteen men were eligible. Thirteen of these men cast their ballots. The fourteenth man was in jail.

## CLEARS DIPLOMATIC SLATE

London Telegraph's Opinion of Mexican Elections.

London, Oct. 27.—The Daily Telegraph, in a special article on the Mexican situation, argues that Great Britain recognizes President Huerta for only a limited period which terminated with the elections.

The diplomatic slate, says the paper, is now cleaned and it cannot be too strongly insisted that any refusal of General Huerta to respect his undertaking not to accept the presidency, or that any violence shown toward prisoners or otherwise, would create a new situation entitling Great Britain to reconsider her recognition.

Great Britain will observe entire neutrality and will not interfere unless some arrangement for joint action can be made or unless the United States suggests its inability to deal in a military way with its turbulent neighbor.

He was buried beneath the wreckage and when found was sitting crouched beneath a heavy timber which had prevented the bricks from falling on him. Fire shot out on all sides, but he put it out with his hand.

Cries brought the rescue parties near and after an hour of strenuous work the man was pulled forth, removed to a hospital and doctors say that he will recover.

Providence, R. I., Oct. 27.—Bishop Eadsall of Minnesota was one of the wreck victims of the Gilt Edge express on the New Haven road in which fifty-two persons were injured. He was returning from the Episcopal convention at New York.

When the cars left the track Bishop Eadsall, who escaped practically unhurt, was among the first to rush to the assistance of the injured and worked for some hours bandaging cuts and broken bones.

## RESIGNS FROM MEXICAN ARMY

General Felix Diaz Severs Relations With Huerta.

Vera Cruz, Oct. 27.—The last shred binding General Felix Diaz and General Victoriano Huerta was severed when General Diaz telegraphed to the department of war his resignation as brigadier general of the army.

Negotiations regarding the trip to Mexico City on invitation of General Huerta ended by his flat refusal to accompany Colonel Vidaurazaga, secretary to General Blanco, war minister, giving as his reason the illness of his wife.

The few partisans of Diaz who have stood guard in his rooms at the hotel for the last four days also left for their homes in Mexico City, but a handful of supporters are still here, subject to the orders of their political chief. The building is being closely watched by plain clothes men and police from points of vantage in the streets and on roofs.

HEARTY WELCOME  
FROM SOUTHERNERSThousands Cheer President Wilson  
on Way to Mobile.

On Board President Wilson's Special Train, Atlanta, Ga., Oct. 27.—Thousands of Southern folk in great cheering throngs welcomed President Wilson to Dixie land as he sped through Virginia, North and South Carolina and Georgia en route to the Southern Commercial congress at Mobile, Ala., to deliver an address.

The shrill notes of the rebel yell at Salisbury, N. C., awakened the president earlier than he had intended to rise and the autumn sunlight streaked over the Blue ridge, a pilgrimage of admiring hosts began.

"We walked fifteen miles to see you," said a group in North Carolina, as the president appeared on the car platform at Charlotte. They told Mr. Wilson they were from Davidson college, where he had prepared for Princeton. The president greeted them warmly.

"It's like coming home again," he said, and amid cheers hundreds of hands were stretched toward him. Mr. Wilson shook hands with many, but refrained from making any speeches.

## CONTENTS NOT MADE PUBLIC

Bryan Receives Cipher Cablegram From John Lind.

Washington, Oct. 27.—Officials in Washington kept in constant touch with the state department for news from the Mexican elections and President Wilson, although en route to the Southern Commercial congress in Mobile, Ala., was kept advised of the situation as it was reflected from Mexico City.

Secretary Bryan received a long cipher cablegram from the special American envoy, John Lind, in Vera Cruz. This message, the contents of which were not made public, was reported to contain a summary of instructions sent out to the Mexican governors from the Huerta government for the conduct of the election.

MEXICO AGAIN ON  
THE FRONT PAGESPublic Promised Diet of Revolution  
For Many Months.

## ONE PLAUSIBLE THEORY.

Clouds of Misinformation Muddle Situation Until No One Knows Just Where the United States Stands—Let 'Em Fight Is One Solution That Has Been Suggested.

By ARTHUR W. DUNN.

Washington, Oct. 27.—[Special.]—During the world's series which settled the baseball championship the Mexican situation was temporarily thrust into the background, but it could not remain there long with nothing of great interest and excitement on hand. The loss of a ship at sea and another in the air seemed to rest the jaded readers of Mexican affairs for a time, but it really looks as if we were to have Mexico as a steady diet for many months to come.

"We are going to intervene; we are not going to intervene; President Wilson has determined to enforce his policy; President Wilson has no policy; we must enforce the Monroe doctrine; we have no Monroe doctrine," and many others are phrases heard concerning our relations with the warring republic. The discussion is from every point of view.

## One Plausible Theory.

At least one plausible theory seems to develop through all the clouds of misinformation and gloom of those who shoulder responsibility for our international relations. The only way the Mexicans can settle their affairs is to fight it out until one side is strong enough to rule. Intervention by the United States or taking sides with one of the several factions would simply mean an extension and enlargement of the present deplorable conditions.

## Martine Militant.

Senator Martine of New Jersey becomes militant when he reads about the manner in which foreign nations are trying to "put something over" on us. The talk of a trade war because we propose to give American ships a 5 per cent benefit in carrying goods from foreign countries stirred the New Jersey senator to bitter resentment.

But he goes farther. He would abrogate the Hay-Pauncefote treaty, "because," he told the senate, "it seems that a foreign diplomat can take that Hay-Pauncefote treaty and show that we have no right at all to exist as a nation."

It seems so strange now, as it did to some of us at the time, that the United States, through its diplomatic officers and by a two-thirds vote of the senate, would tie its hands, as it did in the Hay-Pauncefote treaty. Martine has many sympathizers in his efforts to abrogate it.

## Disappointed Missourian.

A man from Missouri says he spent two weeks in Washington, and he wanted to see some downright legislation at the capitol, but every time he went to the house a "bushy whiskered man, who seemed to be the boss of everything and whom everybody referred to as 'the gentleman from Illinois,'" held up everything, caused the roll to be called, insisted upon "no quorum" and otherwise prevented me from seeing any real legislation." The Missourian, however, had an opportunity to see Champ Clark hammer the desk with his gavel.

## A Reason.

One reason given why there should be an adjournment or at least a recess is that mileage will be assured if there is a valid reason for senators and representatives to go home. In all probability the mileage will be voted for this special session, but it would be much easier if there was a real interregnum.

## Might Have Been Leader.

Dorsey W. Shackelford of Missouri might have been leader of the house if he had not left the ways and means committee to become chairman of the roads committee, "Dirt Road Shack," as he is called because he has been such an advocate of roads—and he uses it in his district with good effect—did not see much hope of succeeding to the leadership in the house at the beginning of the present session. There was Underwood, and no one thought he would ascend. Next was Francis Burton Harrison, and who ever thought he would be sent to the Philippines? Shackelford saw more real service at the head of the roads committee, and so he went after it. Incidentally it may be remarked that no one is going to get the leadership without a struggle.

## Railway Mail Pay.

It looked like quite a demonstration when about thirty railroad presidents came to Washington. The private cars in the railroad yards were so numerous that it seemed as if several special trains had arrived. Those presidents told Postmaster General Burleson that the revenues of the roads had been cut by taking away a large part of the paying express business and sending it by parcel post, which roads carry and for which they do not receive additional compensation.

The postoffice department, Mr. Burleson told them, "wants to be absolutely fair to the railroads."

Political Crisis in Spain.

## VATICAN WATCHING SPAIN

Attitude of Neutrality to Be Maintained in Present Crisis.

Rome, Oct. 27.—The political crisis in Spain is being closely watched by the Vatican. Pope Plus and Cardinal Merry Del Val, the papal secretary of state, are being kept constantly informed of the development of events. The Spanish clergy and episcopacy have been instructed to maintain strict neutrality.

WHOLESALE JEWELRY  
MAN BECOMES THIEFBulldog Proves Undoing of San  
Francisco Citizen.

San Francisco, Oct. 27.—For five years William Bastain has been accepted by San Francisco business men as a responsible citizen, with a profitable wholesale jewelry business.

His property investments have been numerous and large; thousands of dollars have been sent by him to support his mother in Germany and his young sister has had the best educational and social advantages.

He is now in jail, a confessed robber, with a record covering many years, captured by a bulldog which pinned him in a corner as he stole through a back yard in the night.

"My work has been so easy it has been laughable," Bastain told the detectives. "I have never been disturbed while at work."

"The people I did business with believed me to be what I represented myself. Jewelers bought my diamonds and the mint took my melted gold without question."

"I have always been a natural thief and I have found it easy to steal. But I am averse to killing or injuring."

## FIGHT LASTS TWELVE HOURS

General Battle Between Mine Guards, Deputies and Strikers.

Ludlow, Colo., Oct. 27.—A general battle between the strikers, mine guards and deputy sheriffs was waged for twelve hours in Berwin Canon at Hastings and in the vicinity of the Colorado and Southern station at Ludlow.

One mine guard was killed and, according to union men, one striker is missing.

The situation is critical. More than 700 armed strikers are reported to be in the field against the mine guards.

## HOLDS THAW RESPONSIBLE

Attorney General of New York Declares He Is Sane Enough.

Albany, N. Y., Oct. 27.—Attorney General Carmody issued a statement declaring that the outcome of the present proceedings to bring about the return of Harry K. Thaw to this state will vindicate "whether the law will be vindicated or whether by the lavish and ingenious use of his great wealth Thaw can break down the barriers of justice and defeat the law."

It never was claimed that Thaw at all times is insane or that he was incapable of committing crime, the attorney general said, and added "that altogether under the law an insane man is not held responsible for his acts committed while insane, if a man is sufficiently lucid to plan his escape successfully from confinement it is apparent that he knows what he is doing and is legally responsible for his acts."

## ITALIAN ELECTIONS QUIET

Only One Person Killed as Result of Disorders.

Rome, Oct. 27.—General elections were held throughout Italy. Disorders were not as grave as expected, although one was killed and many were wounded. Numerous arrests were made.

The balloting was light, because, on account of springlike weather, the people preferred to go on excursions rather than to the polls. Results of the elections are not definitely known, but already the government is assured of a large majority.

The exercises included addresses by President Wilson and Champ Clark, speaker of the national house of representatives.

Edward W. Fisher, cashier of the bank, will come here and attempt to pick the photograph of the man who shot Rotterdam from prints at the rogues' gallery.

## TWO MORE RESCUERS PERISH

Helmet Men Explore Entire Workings and Ascertain Definitely That No Life Exists in the Pit—Heroic Efforts of the Explorers to Rescue Entombed Miners Result in Their Own Deaths.

Dawson, N. M., Oct. 27.—Positive assurance that none of the 284 miners caught in the explosion of Stag Canon mine No. 2 last Wednesday remain in the mine alive has been obtained.

The entire workings have been explored by helmet men. It was definitely learned that bodies which have not been located are lying buried beneath tons of debris.

Two hundred and sixty-one, the original death total, was increased by the death of two helmet men in their heroic efforts to save life.

Twenty-three lives were saved after the explosion, which, according to government miners rescue reports, was the greatest in point of violence in the history of the United States and which, they say, ranks third in its appalling loss of life. A total of 140 dead have been brought to the surface.

The bodies of Mine Superintendent William McDermott and Henry P. McShane, the wealthy young man from New York, were recovered. Both, with sixteen others, were buried under tons of debris.

## POLITICS IN NORTH DAKOTA

Lines Are Being Laid for Congressional Campaign.

Grand Forks, N. D., Oct. 27.—Lines for the United States senatorial fight and for the three congressional contests in North Dakota are being laid early and the present indications are that the fights for the Republican nominations will be spirited.

Opposition to United States Senator A. J. Gronna has developed in Andrew Miller, attorney general, while Representative Young of the Second district must contest with W. F. Tuttle of Dawson, who also was a candidate for the place last year and has announced that he will be in the fight again.

P. D. Norton, the Third district representative, may have opposition, but as yet nothing has developed with respect to the situation in the First district, where H. T. Helgesen appears to have a clear field.

Senator Gronna has returned to the state and his presence has stirred up new interest in the senatorial situation.

## COTTON IGNITES AT SEA

British Steamer Puts Into Halifax With Cargo on Fire.

Halifax, N. S., Oct. 27.—The British freighter Sowell, bound from Savannah for Havre, put in here with her cargo of 12,000 bales of cotton on fire. On Friday morning, 380 miles southeast of Halifax, fire was discovered in the forehold. It had gained such headway that the deck was almost at white heat, but the engineers succeeded in cutting holes in the deck through which steam pipes were inserted.

## BEARD GRIZZLY IN HIS DEN

Wyoming Hunters Kill Beast Weighing 525 Pounds.

Deadwood, S. D., Oct. 27.—Literally bearding a grizzly bear in its den the Lincoln brothers of Sundance, Wyo., coaxed the big animal from a cave near Sundance and shot it down as it rushed toward them.

Bruin, who had claws five inches long and a hug like an ore crusher was prompt to resent the defiance of the hunters. He charged them so quickly that they narrowly escape injury.

The bear was one of the largest ever shot in this part of the West

Much interest is being manifested  
in the Adult Bible class banquet to

Adv. 151f

L. A. Canfield of Brainerd has  
again demonstrated that as quick  
action is possible in Northern Minne-  
sota soil and climate as in any other  
section of the country. On June 25  
he planted in his garden here a var-  
iety of potato known as the "Beauty  
of Hebron," the seed of which he se-  
cured in Northome, Koochiching  
county, and exactly ninety days later  
the product was dug. The four weigh  
five pounds. The size of course is not  
the feature so much as the rapidity  
of their maturity. The Duluth Her-  
ald publishes a picture of four of  
Canfield's big potatoes in its last  
Saturday edition, giving the tubers  
the place of honor at the top of the  
Northwest page.

Get rid of the torments of rheumatism  
That you can do by ridding your-  
self of the cause. Weak and inactive  
kidneys allow uric acid poisons to  
remain in the blood and rheumatic  
pains swollen and aching joints fol-  
low. Take Foley Kidney Pills to ease  
you of the pain and torment. They  
will positively and permanently build  
up the kidneys, restore their normal  
action and keep the uric acid crystals  
out of the blood and body. Try them.

JUST ONE CASE IN 21 YEARS.

Illinois Justice Probably the Record  
Holder For Official Inactivity.

W. J. Caughey, justice of the peace  
in Henry county, Ill., probably holds  
the world's record for official inac-  
tivity. The state attorney recently  
complained that no reports were forth-  
coming from Justice Caughey concern-  
ing cases in his court, and an investiga-  
tion resulted.

It developed that Justice Caughey  
had held his office twenty-one years  
and in all that time he had been called  
upon to try but one case, a disorderly,  
resulting from intoxication, and he  
then imposed a fine of a dollar. As  
no marriages came his way this com-  
prises his entire official service for the  
twenty-one years.

There is more Catarrh in this section  
of the country than all other diseases  
put together, and until the last few  
years was supposed to be incurable. For  
a great many years doctors pronounced  
remedies, and by constantly failing to  
cure with local treatment, pronounced it  
incurable. Science has proven catarrh  
to be a constitutional disease, and there-  
fore requires constitutional treatment.  
Hall's Catarrh Cure, manufactured by  
F. J. Cheney & Co., Toledo, Ohio, is the  
only Constitutional cure on the market.  
It is taken internally in doses from 10  
drops to a teaspoonful. It acts directly  
on the blood and mucous surfaces of  
the system. They offer one hundred  
dollars for any case it fails to cure. Send  
for circulars and testimonials.

## TO ESTABLISH TITLE TO LAND

C. Grono Files a Suit Against the Orelands Mining Co., of Deerwood.

### WHICH HELD A MINING LEASE

Grono Claims the Taxes were not Paid and Asks he be Declared the Owner in Fee Simple

C. Grono has commenced suit against the Orelands Mining Co., of Deerwood, to establish title to a tract of land described as lot 1 or the northeast quarter of the northeast quarter of section 36, township 46, range 29.

In his complaint he alleges that the land was owned by the state and that it gave the Orelands Mining Co. a mining lease.

Taxes on the land were not paid and judgments were endorsed. On November 22, 1910, he claims the state delivered an assignment of the land and all taxes to the plaintiff.

He now demands judgment against the defendant and that he be declared the owner in fee simple of all the mentioned real estate free and clear of the adverse claims of the mining company.

### Claiming Bush

Mike Aurelius it was—we opine, rough mandedly—who, after tethering Faustina, gave thought to matters philosophic and then poetical and then propounded that famous couplet relative to the seven cities claiming Homer dead through which the living Homer bumbled his bread. It may have been one of the earlier bush poets and carelessness as to intimate detail will have to stand for it.

This Homer business has a counterpart at present in that about every small town in the United States is attempting to claim Leslie Bush, the Athletics' pitcher. Brainerd, has the inside track and nine points in the law—same meaning possession.

New York writers of sport say that the victory of Bush every ham-and, every hay-burner, every tallow-dip, every water-tank and every pancake town in the country rose up and claimed Bush, although Brainerd got in first with its congratulatory telegram and thereby draws all the reflected glory and subrefugeance appertaining to the situation.

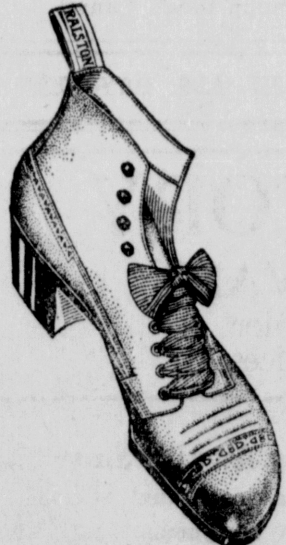

Brainerd's claim is first by right of eminent domain, riparian rights and brand of the range. Brainerd has pursued the dignified course by refusing to take any part in the clamor, knowing full well that as quickly as Josephus could adjudicate the little after-settlement with the national commission he would head for the old home town—and he did. All other towns are base counterfeiters and imposters. Brainerd is the 100 per cent pure and guaranteed under the pure food and jaw acts. We of the larger spots of accumulated population of this great commonwealth doff our lids to Brainerd. Any smaller town producing two winning pitchers in a world series is entitled to fill up with pride, burn the city hall and otherwise disport itself as it pleases for at least two weeks and a month if it sees fit. Brainerd has won its spurs in the national arena and can wear 'em to bed if it wants to.—Minneapolis Journal.

### Special to Dispatch:

Mexico City, Mexico, Oct. 27.—Returns from Mexican elections today showed that less than 5,000 votes were cast, including this city, where there are 30,000 voters. In spite of the meager voting, it is expected that the congressional candidates with the approval of General Huerta, will declare themselves elected and their first act, it is declared, would be to declare the presidential election void. They are then expected to "request" Huerta to remain president ad interim until another election can be held, which will be when Huerta chooses.

### DEATH OF MRS. McKAY

Wife of W. D. McKay Passed Away Sunday Night at 10:40 Surrounded by Family

Mrs. Rebecca McKay, aged 62, wife of W. D. McKay, passed away Sunday night at 10:40 following an illness of five years' duration, leakage of the heart being the immediate cause of her demise. She was born in Canada. In December 1874, she was married to Mr. McKay and of this union six children survive her, Fred W. McKay, cashier of a bank at Bozeman, Mont.; Harry S. McKay, a mining engineer of Sonora, Mexico; and the Misses Mabel, Daisy, Edith and Alice McKay, of Brainerd.

She was a devoted member of the Episcopal church and did much to aid the work of the church. Living in Brainerd 33 years, she with her husband enjoyed a wide acquaintance and possessed many friends. She leaves three sisters, Mrs. Elizabeth McLean and Miss Anna Fenn, of Ottawa, Canada and Miss Alice Fenn, of Vancouver, B. C. A brother, John Fenn, lives at Seattle, Wash.

Mrs. McKay was a patient sufferer and everything possible was done to ameliorate her pain. Three years ago she enjoyed a trip to California and it was hoped the change of climate would be beneficial.

No funeral arrangements have been made at present, but it is thought the services will be held at 3 o'clock Wednesday afternoon from St. Paul's Episcopal church.

In their bereavement, the sympathy of the many friends of Mr. McKay and family is freely extended them by their many friends.

### THE COMMISSARY DEPT.

Two Views Regarding the Equipment of a Duck Hunting Party, as Regards Food Supplies

Two hunters about to embark on a duck shooting expedition were heard to argue about their supplies.

"Well," said one of them, "have you got all the supplies we need?"

"Yes," said the other, "I got the guns, duck boat, two loaves of bread and four quarts of whiskey."

"Gee!" said the other emphatically. "Why did you buy so much bread?"

To John Larson was awarded the contract to furnish 1400 tons at \$3.95 a ton.

Nine Children Taken Away from One Family in Brainerd, the Parents Being Inebriates

At the same session of the probate court that the Watson child was disposed of nine children were taken away from inebriate parents. Mrs. Flannery says that the presence of these children in the court room was the most impressive temperance lecture she had any knowledge of.—Cuyuna Range Miner.

### PRETTY SHOW WINDOWS

Michael's Baby Window Something New—Skauges and Murphy's Windows

Stores of Brainerd are paying increased attention to window exhibits and one of the original ones is that of H. F. Michael who this week features "Baby Week" at his store. The show window displays a wealth of designs and articles for His Majesty, the Baby, which range from playthings to dresses, from cribs to coats. In one nook one sees baby's first playmates, in another baby's first party, the baby's first sun party and baby's first letter to grandma. It will interest the children to see this.

Another Michael window shows novelties for Halloween parties.

At the Skauge drug store Skauges' corn remover has been featured in an effective manner. Two tramps recline in the straw and are commenting on the valuable qualities of the medicine.

At Murphy's Store of Quality a new showing is made of seasonable coats and suits and two of the latest model slit skirts are shown. This window is very attractive.

### SICK, SOUR STOMACH.

### INDIGESTION OR GAS

Take "Pape's Diapiesin" and in Five Minutes You'll Wonder What Became of Misery in Stomach

Wonder what upset your stomach which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sour, gassy and upset, and what you just ate has fermented into stubborn lumps; head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapiesin and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a bad stomach. A little Diapiesin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapiesin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.—Advtd.

### "The Virginian"

"The Virginian", presented at the opera house Sunday evening, drew a fairly large audience and the play, sketching a phase of Western life, was excellently portrayed by a capable company. There are many touching scenes. In the third act Steve, a great friend of the Virginian's is lynched for being a member of a cattle stealing gang, the leader of which is a half-bred named Trampas. Steve has given his revolver to the Virginian as a token of friendship. Near the end of the last act when Trampas is looking for the Virginian with the avowed intention of "shooting him up," the latter pulls Steve's gun from the holster, and looking at it for a moment, says quietly, "Well, if I must kill him I'm glad it's to be done with your gun, Steve."

### Bowling.

Bowling, or bowling, is one of the most popular and ancient of English pastimes, its origin being traceable to the twelfth century. It was held in such disfavor for years that laws were enacted against it, and it was an illegal pursuit. Alleys were built, however, as it could not be played out of doors during the winter, and the game flourished in spite of opposition. In the beginning of the eighteenth century greens began to increase, while the alleys were rigorously and absolutely suppressed. It soon became a royal game, and no gentleman's place was complete without a bowling green.—New York Press.

There is always hope in a man that actually and earnestly works. In idleness alone is there perpetual despair.—Carlyle.
